

## Baiona - Vigo

### El consejo del cartero

"Vigo is one of the main Spanish ports and a city with the perfect mix between tradition and modernity that deserves to be visited. On your way you will visit our best beaches such as Praia de Samil and Praia do Vao. If possible, visit our great treasure that are the Cies Islands and if not, just enjoy our beautiful sunsets with the Cies in the background. For your free time I recommend walking through the port area and get lost in the streets of the Casco Vello where you will find a wide gastronomic variety and a formidable environment ". André Iglesias, Correos of Vigo.
