

Lubián - A Gudiña

You leave **Lubián** crossing the village on its lower side for 2 kilometres, also crossing the River Tuela and going under the A-52 up to the 18th-century chapel of Tuiza. You have to cross the river again before you start climbing towards A Canda, the pass between Castilla y León and Galicia.

Then you continue walking across the municipality of **A Mezquita** up to the village of A Canda, at 1,165 metres. The Camino goes past the villages of Vilavella, O Pereiro and O Cañizo.

After that, you will be walking close to the N-525 to **A Gudiña**, where pilgrims have all services and where you can see the churches of San Martiño, of rural Galician Romanesque style, and that of San Pedro.

The Área Panorámica de A Gudiña is a visitors' centre with two exhibitions, one of typical local produce, and the other of current Galician crafts of all trades (pottery, silversmiths, lace, wood carving, forging...).

El consejo del cartero

“The blessed Sebastián de Aparicio was born in A Gudiña and you can still see the ruins of his home”.
